École d'ingénieur Denis Diderot
Université Paris Cité

Commission des titres d'ingénieur

Dr Fayna MAMMERI
Associate Professor
Director of Studies, Engineering School Denis Diderot (**EIDD**)
Université Paris Cité

To whom it may concern

Ms Elizaveta (Lisa) Kritova joined the Ecole d'Ingénieur Denis Diderot (EIDD) on September 1, 2023 in the 1st year of engineering studies, after an admission interview.

Lisa is a dynamic student who has already begun to build her professional project. She is fully proficient in English and would like to acquire leadership skills in parallel with her engineering studies. She started the year very well with a very good grade in her maths and physics exams.

The School management team fully supports **Lisa** in her drive to become a brilliant woman engineer and leader in her professional activity. We warmly recommend her application to complete the 5th and final stage of your curriculum.

We know she deserves it and will succeed brilliantly. If you have any questions, please don't hesitate to contact me by email.
